Elegant Mix

Aside from functionality, storage and display systems aid in defining a space. Cappellini's *Sistema* is an elegant option. The modular elements comprise cases, upright units and combination cabinet compositions that can be readily mounted onto wall panels. They can be used on their own or integrated with other elements. Available at Dream Interiors.

Eclectic Aesthetic

PHUNK Studio has translated its 'Empire of Dreams' graphics into eye-catching carpets for Tai Ping Carpet under the manufacturer's *1956 by Tai Ping* series. The homegrown contemporary design collective's signature brand of pop-culture-meets-rock-and-roll aesthetics has recently transcended the graphic design realm into fine art-making techniques, making these carpets collectible pieces.

Water Wellness

In 2007, plumbing and installation systems planning specialist CEA started designing sanitary fittings. Of note is the *ZIQQ Black Diamond* series. An abstraction of the traditional three-point cross tap, it is available in CEA's unique diamond-hard and abrasion-resistant Black Diamond finish. Available at Decennia, Living Works and Bathroom Gallery by Wan Tai & Co.

Subtle Screen

Dorma's innovative *CD 80 Magneo* is an elegant proposal amidst today's sea of flashy designs. The integrated all-glass system has an extremely discreet profile that looks good either concealed or fixed on the surface, allowing for more seamless transition between rooms. It is also virtually noiseless when in motion, made possible with a magnet-powered operator.
